

About Us

integrate the strategic objectives in their management and production systems in a transverse manner, so that the implementation of processes that are respectful towards the environment are not limited to specific actions, but instead from a part of its know how as a whole.

objective is to offer personalized and customized solutions for architecture and interior design through pieces which work as a complement for coverings and floorings. With high levels of aesthetic value, the ceramic pieces we manufacture achieve in adding extra value to projects thanks not only to their finishes, but also to their suitable adaptability with the rest of the elements.

This reflects in this catalogue which we have created with utmost creativity. The catalogue is one of the principal tools that still nowadays keep together the relationship between firms, resellers and consumers.

Once again following its own style, translates the trends and the innovations of the ceramic sector in something captivating and usable for the everyday design.

Various Size of Tiles

Tiles come in a variety of sizes, and the right size for a particular space depends on a few factors, such as the size of the room, the intended use of the space, and personal preference.

The fabulous designs from our different collections will be a treat to your eyes and will add value to your luxury lifestyle.

It's important to consider the scale of the room and the tile pattern when choosing tile size. For example, larger tiles can make a small room appear larger, while smaller tiles can create a more intricate pattern or texture. Ultimately, the choice of tile size depends on personal preference and the desired aesthetic for the space.

Brand Introduction

The brand was launched as a high-end compact surface with revolutionary physical and technical features. uses the best natural raw materials with state-of-the-art technology to create the best surfaces with luxurious designs.

What is Wood Tile Flooring?

So, what is wood tile flooring? As you may have thought, it is simply a porcelain tile that appears like wood. In fact, these products look so real to the naked eye it's almost impossible to know that what you're seeing is not real piece of wood. Thanks to developments in technology and manufacturing processes, this wood floor tile contains a level of detail which was not possible previously. Detail so innovative and accurate that these products can reflect the look and feel of a hand scraped wood floor.
